ART UNIT

PAPER NUMBER

3672

DATE MAILED: 09/11/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

<b>Office Action Summary</b>	Application No. 10/769,221	Applicant(s) ZUPANICK, JOSEPH A.	
	Examiner Hoang Dang	Art Unit 3672	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 1,2 and 4-21 is/are pending in the application.  
     4a) Of the above claim(s) \_\_\_\_ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 16-21 is/are allowed.
- 6) ☒ Claim(s) 1,2,4,8,10 and 15 is/are rejected.
- 7) ☒ Claim(s) 5-7,9 and 11-14 is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_ are subject to restriction and/or election requirement.

**Application Papers**

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
     Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
     Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

**Priority under 35 U.S.C. § 119**

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).  
     a) ☐ All    b) ☐ Some \* c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_.
  3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1, 2, 4, 8, 10 and 15 are rejected under 35 U.S.C. 103(a) as obvious over Henley (col. 1, lines 37-44; col. 3, lines 18-23; col. 4, lines 5, 6, 17-21, 25-30, 55-61, 67-70; col. 5, lines 2-8; column 2, lines 34-49 and column 3, lines 6-10) in view of Woytek et al (US 4,446,920).

Henley discloses a method for testing a partially formed well (col. 5, lines 6-8), comprising:

forming a first well bore intersecting a subterranean formation (4), the first well bore comprising a portion of a well and having a first configuration (column 4, lines 6-11); testing (column 4, lines 17-20) a production characteristic (column 4, lines 5-6) of the subterranean formation through the first well bore in the first configuration; reconfiguring (column 4, lines 20-21 and 25-28) the first well bore to a second configuration disparate from the first configuration; testing the production characteristic (column 4, lines 28-35) of the subterranean formation through the first well bore in the second configuration; and planning further formation of the well based on testing of the subterranean formation through the first wellbore in the first and second configurations (column 2, lines 34-49 and column 3, lines 6-10)

It is noted that the step of “planning further formation of the well based on testing of the subterranean formation through the first well bore in the first and second configurations” does

Art Unit: 3672

not distinguish from the Henley reference which discloses in column 2, lines 40+ that "[O]ne of the outstanding advantages of the process of my invention is that valuable information of the type required to ascertain whether large-scale flooding operations should be conducted can be determined under natural reservoir conditions within a relatively short time." and in column 3, lines 6-10 that "[t]his information then will indicate how much additive will be needed for the main flooding operation in which the main reservoir volume, as a result of other tests, can be established." In any event, one of ordinary skill in the art would have readily recognized that if the results of the test would be poor the formation would not be further exploited and in the opposite case more boreholes would be performed.

Henley does not disclose how the perforations disclosed in column 4, lines 20-21 and 25-28 are formed. However, it would have been obvious to one of ordinary skill in the art at the time the invention was made to cut perforations in the casing and localized portions of surrounding strata as claimed since it is well known in the art to form downhole perforations by a perforating gun or by a jet mixture of gases as taught by Woytek et al (see figure 1 and the abstract)

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 1, 2, 4, 8, 10 and 15 have been considered but are moot in view of the new ground(s) of rejection.

*Allowable Subject Matter*

4. Claims 5-7, 9 and 11-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 16-21 are allowed.

*Conclusion*

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

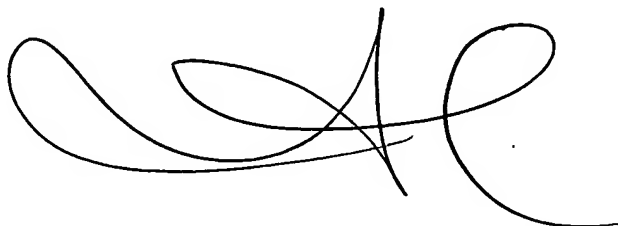

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoang Dang whose telephone number is 571-272-7028. The examiner can normally be reached on 9:15-5:45 Monday-Friday.

Art Unit: 3672

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bagnell can be reached on 571-272-6999. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
